

Company Profile

Genius Methods provides board evaluations, governance, business effectiveness, regulatory compliance, legal compliance and sustainability; each with its own specific focus in the area of improved organizational efficiency and effectiveness.

Services:

- **Board Evaluation:** Genius Methods delivers a robust, rigorous and transparent Board Evaluation that teases out the “real” issues on board effectiveness delivering within your budget and style the recommendations a value that will support the next stage of governance growth for the Board
- **Corporate Governance:** Genius Methods provides a framework that can be used within a department, a geographically diversified group or at enterprise level to instill the work ethic of doing it right first time.
- **Risk Evaluation:** Genius Methods will help you think differently about risk assessment and risk evaluation, giving you the space to think outside the box. We provide evaluation templates for standard risk assessments required by regulations and those that the Board should be considering given the changes in the business dynamic.
- **Regulatory Compliance:** Genius Methods deploys a framework within your operation team to ensure that the procedures are followed effortlessly, correctly and without exception with full evidence and proof of due process available for the required time and beyond.
- **Financial Services:** Genius Methods helps this sector to comply to FSA requirements in a way that is easy, simple and designed for the role of the specific individual. Allowing for ease of audit, ease of compliance control and providing management oversight at all times.
- **Professional Services:** Genius Methods helps solicitor firms to focus on being lawyers while we help the firm comply to the new outcome based SRA requirements in a way that is easy to work with, does not add cost and brings value to the partners.
- **Corporate Sustainability:** Genius Methods helps you determine your strategy towards long-term viability of all aspects of your business. We ensure that the requirement to think long term for growth and value is instilled into all aspects of the thinking and delivery processes.
